

Sociology Advisers

The Department of Sociology advisers are available to help guide students in their selection of courses, and to ensure that students are fully aware of all the opportunities available to them in the sociological field of study. Sociology advisers may also approve course substitutions and help determine graduation credits.

It is not necessary to make an appointment to see a sociology adviser. Students may see advisers within their office hours (which change quarterly).

Current Advising and Office Hours – Winter 2012
